Planning :

Senthil and Prasanna contacted each other previously back before 3 - 5 weeks just saying hello and they eventually turned up in conducting one of the super cool weekend to most of the students. We have got really good responses from other colleges in and around madurai. Some Staffs are really helping us to move further and inspiring us not to bound in madurai alone and pushing us for the new colleges in other southern cities of TamilNadu.

Impact :

At the end of the day, people were able to push their own profile pages in their associated cloud console. We saw people editing the code very easily and hacking it.

Volunteers :

We have surprising number of students helping us in madurai. They came up and said we will be helping us. There are 40+ Volunteers in KLNCE.
